

AFFIRMATIONS

WHAT IS AN AFFIRMATION?

*An affirmation is a **positive statement** aimed at **influencing** the **mind**. It helps to **reinforce desired beliefs** and **outcomes**, fostering a positive mindset.*

Affirmation is an important tool during pregnancy to help the mother manifest their dream baby.

RULES FOR AFFIRMATIONS

- **Use Present Tense:** State your affirmation as if your desired outcome is already happening, like **"I am healthy."**
- **Be Positive:** Focus on what you want to achieve rather than what you want to avoid. For instance, say **"I am confident about giving birth"** instead of **"I am not afraid."**
- **Keep It Personal:** Affirmations should relate directly to yourself and your baby in the womb
- **Avoid Comparisons:** Don't compare yourself to others in your affirmations.
- **Be Specific:** The more specific your affirmation, the clearer the intention, such as **"My baby and I are growing stronger every day."**
- **Be Confident:** Phrase affirmations **without doubt**, reinforcing belief in their achievement.
- **Engage Emotions & Senses:** Feel the affirmation deeply; imagine it with all your senses.
- **Repeat regularly:** Practice affirmations **daily** to strengthen positive beliefs in your subconscious mind.
